BODY METHOD STEP 5: HYDRATE

Ritual Body Lotion Bar – Bloom

soak in the goodness...

Bloom Collection with hyssop & calendula

Lotion has never felt or smelt soooo good. The water has stopped, the steam surrounds you but there's one more moment of pampering just for you. The final step of a refreshing shower, this will reinvigorate you. It's your moment for pure, nourishing immersion. Handcrafted in small batches with farm fresh beeswax and wildcrafted herbs the Ritual Body Lotion Bar will leave your skin silky soft for days...

Unique Transformation - What Makes It Different:

Waterless! Two reasons we don't use water in our Lotion Bars... one is that water attracts water so when we apply water-based products to our skin, it draws out precious moisture from our skin and releases this necessary nutrient into the air leaving the ever-vicious dry cycle. Have you ever wondered why you can apply a water-based lotion to the skin all throughout the day and never achieve glowing hydration? You want hydration to come from the bathing process, locking it in with a botanical humectant that combines herbs and farm fresh beeswax for maximum health, beauty, and glowing skin. Additionally, products containing water require preservatives, stabilizers, and emulsifiers. Many of the products on the market today list water as their first ingredient.

How to Use:

First, complete steps 1 - 4 in The MIG BODY Method. Keep in your shower and massage onto warm, wet skin right before you get out. Apply a very small amount onto arms and legs paying close attention to elbows, hands, and knees. Pat dry.

Beauty Hack:

Have you ever wondered why we don't put water in our products? Products containing water need preservatives, stabilizers, and emulsifiers. Many of the products on the market today list water as their first ingredient. The problem with adding water to any so called "moisturizers" is that water attracts water so the product containing water will draw the moisture out of your skin and cause dehydration. At MIG, we never add water to any of our products.
